## MILD, GENTLE LAXATIVE FOR WOMEN GIVEN FREE

So many of the ills of women are due to habitual constipation, probably because of their false modesty on the subject, that their attention cannot be too strongly called to the importance of keeping the bowels open. It is always important to do that, regardless of the sex, but it is especially important in women.

From the time the girl begins to menstruate until menarche ceases she has always vastly better prospects of coming through healthy if she watches her bowel movements. If you find yourself constipated, with bad breath, pimply complexion, headaches, belching gas and other symptoms of indigestion and constipation, take a small dose of Dr. Caldwell's Syrup Pepsin. It is woman's favorite laxative. You will find that you can do away with salts, strong cathartics, etc., which are entirely unsuited to woman's requirements.

Mrs. Katherine Haberstroh of McKees Rocks, Pa., and Mrs. A. E. Herrick of Wheeler, Mich., who was almost paralyzed in her stomach and bowels, are now cured by the use of this remedy. A free sample bottle can be obtained by addressing Dr. Caldwell, and after you are convinced of its merits buy it of your druggist at fifty cents and one dollar a bottle.

For the free sample address Dr. W. B. Caldwell, 402 Caldwell building, Monticello, Ill.

A lot of men of big pretense are so narrow as the minute you open their front door you are in their back yard.

### Dead—Not Yet.

No, the dearest man on earth isn't numbered in Father Time's harvest. You cannot find his tombstone in the cemetery, neither does a money mound mark his lowly bed. His last resting place was on a cracker box in a grocery store, and there he will remain dead to everything good, dead to all activity, dead to friendship and dead to his home ties until Gabriel shall awaken him to a more active life in a future world. Boys, don't stagnate, don't be a living corpse, don't vegetate like any other cabbage head. Be something. Make every minute count. Why, I would much rather be a first class corpse, with my body nurturing the green grass above me and taking my chance of developing into an angel "over there," than to exist in such a mental fog of stupidity, as if the undertaker had judged I was not even worth a coffin.
